THE WISDOM IN THE PANDEMIC

Thriving on Change – Remote Working – The New Trend

In March 2020, when a state of emergency was declared in Mauritius due to the pandemic, many unprepared businesses faced the challenge to quickly re-adapt their Business Continuity model, if they were to remain on track. To keep the “business as usual” scenario amid this crisis, many companies had no choice than to spontaneously adopt remote working practices as their lifelines.

Controversies and myths around homebased work practices has existed for years and most likely up until the pandemic struck. It has often been alleged that people who are out of their managers sightlines are unlikely to be working and efficient. The belief that productivity, efficiency and hard work could only happen within a “controlled” environment – The Office, was deeply rooted in our mind. **Has covid-19 shaken this belief?**

In all likelihood, it seems that this pandemic has forever changed our perception on remote working and the need to prove its viability. Inevitably, survival instincts urged for a radical shift in the mindset, going from micromanaging to empowering individuals to take ownership - an opportunity to re-create the Trust culture. We are now on the edge of a new frontier, it's time to let go of long held beliefs that we need to look over people's shoulders for them to be productive.

The challenge of attracting and retaining talents often seemed like a Jigsaw to companies trying to figure out the best suited strategy for on-going stability within the workforce. **Could telecommuting be the missing piece of the puzzle?** With hindsight, it now seems more lucid that companies featuring as “Employer of Choice” or “Great place to work” had figured out, long time back, the competitive edge that this work style would bring to their talent management strategy – better stability, increased morale, hence, reduced attrition costs. Besides, a mobile work force proves to be cost effective in terms of infrastructural investments. Now that it seems quite obvious that remote working, at least partly, is something that many employees look forward to and with that kind of morale at stake, it's worth exploring the benefits of this work style.

Whilst we acclimate to remote working and appreciate the numerous advantages that it offers, we should not be ignorant of its challenges and downsides, if managed poorly. Critical to its success is a fully supported work from home strategy including advanced technological support, where employees feel trusted, can communicate easily, access information promptly and effortlessly reach out for help to solve issues.

The Wisdom in the Pandemic
Thriving on Change – Remote Working – The New Trend

An essential aspect which should not be discounted in remote working is quality time for self and the family. To uphold the motivation and passion for work, the struggle to unplug from work should not be felt - The bonus is, happier employees voluntarily put in extra time, care and attention to deliver quality work.

“ONE ASPECT WHICH HAS GAINED A LOT OF DEBATE IN REMOTE WORKING IS SOCIAL INTERACTION. CRITICS ASSERT THAT REMOTE WORKING POSE A SERIOUS THREAT FOR CORPORATE CULTURE THROUGH A LACK OF MOBILITY AND SOCIAL INTERACTION.

Let's not forget that the new generation has grown up immersed in technology and virtual social interactions for a big part of their life – **Isn't that a piece of cake to them?**

On the other hand, for the less younger generation who is constantly striving for flexibility to cater for personal commitments, a leap towards work-life Integration will undoubtedly resolve their struggle for a work-life balance, giving them more time for self and with their family. Technology might be a minor challenge here, but with a little training it should be fine.

Savvy leaders understand the need for strategic agility to sustain growth, be it on the business side or the human side. Covid-19 has taught us that it's now time to transcend our old beliefs and unfold a new chapter in our working life. Take it as an opportunity to look at re-defining the kind of work which can be done remotely and embrace it with an open mind. Remote working can beautifully co-exist with conventional work practices, allowing people to relish the luxury of homebased work while keeping their sense of identity within the workplace community.

The challenge to keep the corporate culture dynamic in remote working is real but given the right framework, tools and support, it can be an opportunity to personify the brand, culture and values through our living beings – our people. No doubt, Technology is contributing a great deal in bridging the social gap in remote working. Chat apps, virtual reality platforms, hang out apps and real time video softwares amongst others, makes real time interaction viable. Social interactions should no longer be seen as a roadblock in this technological age, virtual interaction must now be part and parcel of our work community.

If you are looking to embrace telecommuting, please reach out to AXIS for assistance in designing your own work from home practice manual. We will gladly share our experiences to accompany you on this project.

**NATION
NEWSLETTER**
MAY 2020 / EDITORIAL

The first quarter of 2020 has been somewhat challenging for all of us with the onset of the global COVID19 Pandemic hitting Mauritius mid-March. This is a very difficult time for the worldwide community but even more so for those already living with a chronic condition, like Haemophilia.

Although business has slowed and people are confined to their homes, HAM has continued to be of service to its patients and home treatment has slowly but unexpectedly become a reality for many of our patients who are under prophylaxis treatment.

As of this day, Mauritius has been in confinement for the past 51 days and has recorded 332 cases of COVID19 and unfortunately 10 deaths. The total worldwide count has reached an astounding 4,103,537 cases with a total of 280,470 deaths and continues to rise.

While we are safe at home, there are many in the Essential Services Sector who need to go to work every day. We would like to take this opportunity to pay a tribute to all those Health Care Practitioners and Front-Line Workers who are putting their lives at risk helping treat COVID19 patients in all the hospitals and quarantine centers throughout the island. A special word of thanks goes out to all the Nurses in the Thalassemia and Haemophilia Wards in the main 4 hospitals on the island who continue to help our patients manage their condition, whether it be over the phone, through WhatsApp or at the Wards themselves. You are the true heroes and we are forever grateful for your continued support and dedicated presence.

Despite these testing times, HAM has been hard at work and we are happy to give you a sneak peek into what we have been up to over the last 4 months.

Mahesha Olathi-Caramally

1 Validation workshop on treatment guidelines

After the Pre-Validation Workshop held on the 5 November 2020 at HAM's office with numerous Health Care Professionals from the Ministry of Health and Wellness working with Haemophilia and other Bleeding Disorder Patients, the Validation Workshop on Bleeding Disorders was held on the 10th January 2020 at Ravenala Attitude, Baloclova in the Presence of Professor Johnnie Mathiang, Eminent Haematologist from the Maxeke Hospital, Johannesburg, South Africa.

The Objective of this workshop was to update the Treatment Guidelines for Haemophilia and other Bleeding Disorders through HAM's current Twinning Program facilitated by the World Federation of Haemophilia.

The workshop englobed the critical elements in Haemophilia Management Guidance; after which Group Sessions were conducted to validate protocol and emergency posters to be put up in Hospitals. These posters will ensure 'Factor First' in all Emergency Cases and Standard Treatment for all Haemophilia and other bleeding disorders patients in Mauritius so that they are entitled to the most appropriate treatment thereby improving their quality of lives.

2 Home therapy - On the verge of becoming a reality

In view of the project 'Implementing Home Therapy in Mauritius' we had the pleasure to welcome Sister Anne Louise Cruickshank, Haemophilia Nurse Coordinator from the University of Cape Town and resource person of the World Federation of Haemophilia. Nurses from the 5 regional hospitals attended a 4 day Train the Trainer course from the 17th to 22nd February 2020 on home therapy at HAM's newly refurbished Day Care/training centre.

The knowledge they acquired during this training has empowered them to now train other Nurses as well as HAM's patients in self-infusion and basic Haemophilia Management.

Patients on preventive treatment are attending hospitals twice or thrice weekly to get their medication; they are eager and excited to be on home treatment soon so that they can lead a normal and independent life.

3 Haemophilia Youth of Africa (HYA) - African Youth Leadership Training Workshop

The very first African Youth Leadership Training, a two-day workshop organised by the Youth for the Youth within the African bleeding disorders community, was held in Mauritius from the 28th to 29th February 2020 at Palms Hotel, Quatre Bornes.

The aim of this workshop was to help build stronger National Patient Organisations within the African Continent by providing leadership training to designated youth leaders and equip them with the necessary knowledge and modern tools to address issues such as lack of youth involvement. The training additionally provided aid to youth for establishing or maintaining a youth group within their organisation.

The positive response received from different African Patient Organisations was incredible and a total of 20 youth attendees from Kenya, South Africa, Lesotho, Namibia,

Ghana, Ethiopia, and several youths from Mauritius made this event a success.

The whole HYA family would like to extend their sincere gratitude to all of the volunteers, supporters, and sponsors. Special thanks go to our guest mentors, Dr. Kibet Shikuku, Kenya Haemophilia Association President and University lecturer, and Irene Chami, Regional Manager of Africa from the World Federation of Haemophilia. We would also like to thank Mr. Sahajee Bappoo, representative from the Ministry of Youth and Sports, for his encouraging speech at this event's opening ceremony and the World Federation of Hemophilia for the opportunity and trust given to the Youth of Africa. Last but not least, without the great support of the Haemophilia Association of Mauritius, this whole workshop would not have been possible.

A BIG THANK YOU TO HAM!!

4 Visit of Irene Chami - Regional Manager of World Federation of Haemophilia (WFH), Africa and Dr. Kibet Shikuku, Haematologist and chairman of Kenya Haemophilia Association.

HAM president, Operations Manager and Social Worker had a fruitful meeting with Ms. Chami and Dr. Kibet on the 28th February 2020. Different topics were covered: WFH steps of developing National Haemophilia Care, treatment and care of haemophiliacs in Mauritius, youth activities, and finally collaboration with other African countries.

These meetings are always beneficial and although HAM is today an independently stable NGO, it still has a lot to learn from the larger bleeding disorders community.

6 Deepest sympathy to the Mandarun family

We are deeply saddened by the sudden loss of one of our patients and active members, Mr. Salim Mandarun (Haemophilia Factor IX) aged 49 years who left us on the 19th November 2019.

Mr. Salim lived at Glen Park, Vaccaas and was a Victualleur by profession. Despite his condition, he was struggling to earn his daily living.

Mr. Salim was a cheerful person and always ready to help. Our sincere condolences to his mother, daughter and son.

You will be missed!

The independent security certification
for hospitality

INSCEHO CERTIFICATION IS MADE FOR YOU

You as a hotel

- Operating in a competitive environment in which global security proves to be more and more uncertain.
- Providing the most comfortable and restful place for your guests.
- Communicating efficiently your security commitment to your customers.
- Looking for guidelines to improve your risk management policy and to meet clients' expectations.

You as a hotel customer

- Your security is a fundamental expectation.
- Make sure that it will be efficiently dealt by the hotel.
- Understand the value of the assessment, even if you are not a security expert.

You as an international company having staff traveling abroad

- Fulfill your social and/or legal liability towards your employees.
- Improve your travel policy even with a limited risk assessment expertise and budget.
- Rely on an independent and professional assessment of the hotel's risk management policy.

You as a tour operator or a travel agency

- Understand your clients' expectation by reassuring them regarding their security and safety.
- Give an extra value to your package and make a difference by taking into account security of hospitality.
- Be able to select hospitality partners based on their security performance, without the cost and burden of ordering security audits.

INSCEHO STANDARD & CERTIFICATION

Standard created by hospitality and security senior experts who have direct experience in Africa and Middle East.

Security : prevention of voluntary acts that inflict bodily and psychological harm on customers in a hotel as well as damage to their personal property.

Safety : prevention of accidents (unintended events) that may inflict bodily and psychological harm on a customer during a stay in a hotel.

Certification programme concerning **security, fire-safety and crisis management preparedness** measures implemented by the hotel to protect their clients and their properties.

An **inspection** is conducted yearly on-site to assess the conformity to the standard.

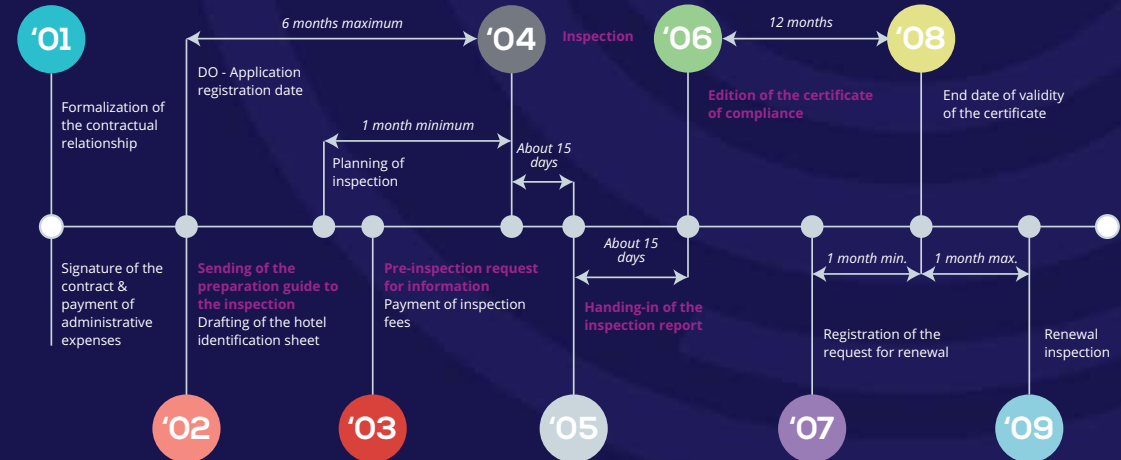

Conformity is reflected by the issuance of an official InSCeHo **certificate and license**, both valid for a duration of **12 months**.
The list of certified hotels is available on www.insceho.org.

The InSCeHo Business label is dedicated to hotels that comply with additional criteria related to specific services for business travelers.

GETTING CERTIFIED

A BENEFICIAL INITIATIVE FOR ALL

For the hotel

- **Do**: A guide for hotels that want to meet the requirements of corporate clients' travel policy.
- **Check**: a means to review the risk management system already in place.
- **Motivate**: certification is a rewarding objective for the hotel security team.
- **Inform**: Efficient communication about hotel's commitment to security and fire safety, focused on all customer segments. www.insceho.org is the customer portal for those who include security and fire safety as factors in selecting a hotel.
- **Foster Trust**: certification is granted by an independent third party.
- **Make a difference**: certification turns the cost of security into a competitive advantage.

For the hotel customer

- **Choose**: Enabled to make an informed hotel accommodation choice.
- **Be confident**: Whether visiting for tourism or business, be confident and concentrate on what is important.
- **Impartiality**: A guarantee of an impartial assessment of the true level of security and fire safety offered by the hotel, renewed yearly.
- **Accessibility**: An expertise, previously only accessible to a minority of large international companies, now accessible to all.

For the travel professional (international company, tour operator, travel agency)

- **Choose**: A customizable selection tool for hotel partners.
- **Be efficient**: Improve company's travel policy: greater choice of hotels with comparable risk management assessments, guarantee of monitoring through annual inspections, confidentiality, immediate responsiveness in the event of a new hotel requirement by the company, crisis management tool.
- **Motivate**: communicate internally about the enhanced travel policy and concrete commitment towards employee security and safety.
- **Reassure**: For tour operator and travel agency to reassure their customers about the security and fire safety of suggested hotels.
- **Demonstrate**: a hotel demonstrates the quality of its risk management arrangements. Travel professionals no longer have to research the security legitimacy of a hotel.
- **Focus on your core business**: Eliminate the costs and constraints of conducting security audits.
- **Satisfy legal requirements**: a quality tool that provides a best-in class cost-effectiveness of one's professional liability in terms of the security and safety of customers and employees.

A BRIEF HISOTRY OF RUM IN MAURITIUS

Sugar cane was introduced from Java by the Dutch who occupied the island in 1598. But the real production of rum really started in the late 19th century by the French and the EnlGLISH colonies. It is said that it was Mr Pierre Charles Francois Harel who, in 1850, initially started local distillation of rum in Mauritius, that was aslo used for exporation.

HISTOIRE DU RHUM A L'ILE MAURICE

La canne à sucre de Java fut introduite par les Hollandais qui occupèrent l'île en 1598. Mais la vraie production de rhum a vraiment commencé à la fin du 19ème siècle par les colonies françaises et anglaises. On dit que c'est M. Pierre Charles François Harel qui, en 1850, a commencé la distillation locale de rhum à l'île Maurice, et qui fut également utilisé pour l'exportation.

5 MARIDADI SUITES
9 BANDA SUITES

Saadani Safari Lodge is located on the southern border of Saadani National Park; where you can experience untamed, untouched East Africa combined with the beauty of the Indian Ocean.

NATURALLY

Adventure, enchantment and ‘Luxury, naturally’ - all delivered with a quiet, understated charm and understanding of place – is the guiding philosophy of Saadani Safari Lodge.

Saadani Safari Lodge is located on the southern border of Saadani National Park; where you can experience untamed, untouched East Africa combined with the beauty of the Indian Ocean.

Our unique location makes our lodge an ideal place for guests looking for a safari experience combined with a relaxing beach trip.

ACCOMODATION AND FACILITIES

The lodge is set right on the beach, and has a private waterhole. The lodge has an infinity swimming pool which overlooks the ocean and is easily accessible from all suites. Enjoy the relaxing sitting area overlooking the ocean, library and thatched restaurant located on the beach. All our suites open directly on to sandy beaches of the Indian Ocean and feature en-suite facilities, a lockable pirate box, overhead fan and mosquito netting. There are five Maridadi suites and nine Banda suites.

Maridadi (meaning ‘elegant’ in Swahili) suites feature an ensuite bathroom with an indoor and outdoor shower, as well as a private deck, overhead fan, mosquito netting and easy access to the main areas.

The Banda suites feature large romantic Zanzibar style nets, locally carved furniture and incredible views over the ocean. The classic Banda’s have a private Makuti (coconut leaf) shaded deck area directly on the beach complete with locally-made sunbeds. Facilities include an indoor shower, lockable pirate box and mosquito netting.

Complimentary Wi-Fi is available in the main areas. Electricity supply in the lodge is solar powered.

GAME VIEWING AND ACTIVITIES

Saadani is the only wildlife sanctuary in Tanzania bordering the ocean. Game viewing varies throughout the year and the area is known for sightings of porcupines, civets, bush pigs, baboons and vervet monkeys. On the open sea, you might be able to spot many species of fish, dolphins, turtles and humpback whales. Key wildlife include: hippos, crocodiles, lions, buffalo, elephant, giraffe, zebra, dolphins, zanzibar galago, blue monkey, yellow baboon, hyena, leopard and civet.

The following activities are included in your stay:

Game drives

Game drives start straight from the lodge’s ‘front door’ in comfortable 4x4 vehicles. The park is the only coastal wildlife sanctuary of its kind on the eastern coast of Africa and so the game safaris are completely unique. The big four are frequently spotted around the lodge.

River safaris

Explore the wonders of the famous Wami River, a paradise for bird watchers and wildlife enthusiasts, where large pods of hippos and banks of crocodile occupy the river. Fish eagles and storks fly high above the brackish water seeking tiger and cat fish.

Walking Safaris

From right outside the suites, wildlife spotting can occur on foot. A professional guide will take you to areas where you can travel by foot through the natural scenery and watch for the local wildlife and birdlife. You can pad barefooted directly from your veranda onto the beach for a gentle stroll or to watch the fishermen bringing in their prawn nets. Nowhere else in the world can you walk on a beach following the footprints of a lion.

Snorkelling

Visit a deserted sand island in the Indian Ocean. Guests can choose to leave early morning and equipped with snorkelling masks and flippers, take a swim straight off the sand banks and admire the coral and fish which have found their home in the waters off the beach.

After snorkelling or sunbathing, you can enjoy a scrumptious continental brunch.

Relax under our shaded tent before returning in time for lunch at the lodge. We can also arrange a lunch trip to the sand island where you will be served fresh seafood lunch before returning to the lodge. (Seasonal activity – not available in January and February each year.)

Saadani village tour

Meet the locals by visiting their village. See where the children learn and watch the daily lives of the local men and women on an excursion to the local Saadani village.

The villagers are keen and excited to meet travellers from foreign lands. Learn about the Maasai culture by visiting their community and speaking to the locals.

The villagers love to entertain guests with their local traditions and teach guests about their way of life.

HEALTH

Please should discuss health precautions for your travel itinerary with a qualified health professional at least six weeks before you depart. We advise all travellers to take precautions against malaria and we recommend speaking to your GP or personal physician four to six weeks before departure.

MONEY AND CREDIT

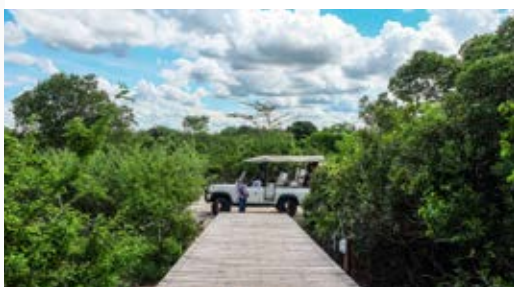

All extras can be paid for with Visa, MasterCard, American Express. No cash payment is allowed at the lodge. Diners Cards are not accepted.

TIPPING

Tipping is not obligatory and it is at the appreciation of the guest.

PRESERVING TRADITIONS

Indian Cuisine has been influenced by a 5000 years history of various groups and cultures intermingling with the subcontinent, leading to diversity of flavours and regional variations found in modern day India. Later Mughals, British, Turks and Portuguese influence also made inroads into Indian Cuisine resulting in its present variety and diversity.

Today, Bhukara recreates the charm of the traditional day tandoor with its delicious menu of succulent tandoor-cooked chicken, kebabs, vegetables, breads and its curries and dahiya. This exotic cuisine is known for being comfort and succour to diners, with its warm robust flavours.

COOKING INSTRUCTIONS

- Rinse 1 cup rice in normal tap water till water is clear.
- Soak 1 cup rice for 30 minutes in 4 cups normal water and drain in sieve.
- Bring 4 cups of water to boil in saucepan and gently pour in soaked and drained rice.
- At high setting cook till water starts boiling again then reduce heat to medium to simmer gently and cook for total 7 to 10 minutes.
- Check rice by pressing between thumb and finger. Just before rice is fully cooked, drain it in sieve for 3 minutes.
- Put back the drained cooked rice in saucepan and cover it tightly. Get stove at lowest possible heat setting for 5 minutes.
- Cream of Super Kernel Basmati Rice is cooked and ready to serve.

Tips: Put some butter/vegetable oil and salt to taste in the boiling water.

MICROWAVE METHOD

Put 2 cups soaked rice into microwave safe deep dish max up to half its height. Pour over rice EXACTLY 3.5 cups water. Add salt, butter to taste. Cover top with cling film and pierce pinholes in many places. Cook at HIGH setting for 12 minutes (for 1100W Microwave Oven). Cream of Super Kernel Basmati Rice is ready to be served.
